DETAILED ACTION

Response to Arguments

1. Applicant's arguments with respect to claim 22 have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claim 22 is rejected under 35 U.S.C. 102(b) as being anticipated by Sutton (US patent 4,937,647).

With respect to claim 22, Sutton teaches a silicon controlled rectifier comprising (see fig. 3 and associated text):

a first semiconductor region 90 of a first conductivity type (N-), the first semiconductor region having a dopant concentration ($C_1 = N^-$);

a buried region 92 of the first conductivity type (N+), the buried region contacting the first semiconductor region and having a dopant concentration ($C_{\text{buried}} = N^+$) that is greater than the dopant concentration of the first semiconductor region;

a second semiconductor region 96 of a second conductivity type (P) that contacts the first semiconductor region, the second region being spaced apart from the buried region, the second region including all contiguous regions of the second conductivity type;

a third semiconductor region 118 of the first conductivity type (N+) that contacts the first region, the third region being spaced apart from the buried

region and the second region, and having a dopant concentration ($C_3 = N +$) that is greater than the dopant concentration of the first region.

Allowable Subject Matter

4. Claims 1-4, 6-13, and 21 are allowed.
5. Claims 23-28 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
